When the Special Events Policy is finalized

- Are the goals of the event congruent with the mission of the Office of Multicultural Affairs?
- Will the event foster understanding, collaboration and respect among the RSDM community?
- Will the event result in disruption to the school’s primary activities of education and patient care?
- Are all members of the dental school community informed and welcomed to attend the event. Events that restrict attendance by race, gender, ethnicity or religion will not be permitted on school property.
- Is there any financial or evangelical purpose to the event? Events for the purpose of soliciting funds or that provide financial gain to the speaker are not permitted, nor are events for the purpose of recruiting to religious affiliations.
- Will holding the event in University property impose a financial burden to the dental school?
